SUBJECT : Tariff Profile for the EC

1. The attached summary table and detailed printouts are in response to your recent request for a tariff profile of the EC by BTN chapter (2-digit level).

[redacted] STAT

[redacted] dollar value. These dollar values are then expressed as a percentage of total imports for all chapters, as requested by James Walsh of your office. In addition, the dollar values and percentages are cumulated down the tariff range. Only imports subject to duty rates are listed within the duty ranges, i.e., free and variable levy items are excluded. The value of these items is included, however, in calculating the percentages. The cumulative percentage; therefore, adds to less than 100%.

3. [redacted] will be pleased to answer any additional questions you may have on this subject. STAT
